

Are you a veterinarian that wants to join a team that feeds the world? If so, Hy-Line International is has an exciting opportunity for an **Associate Veterinarian** to join us at our Dallas Center Campus.

If you have a DVM degree from a recognized university with the ability to achieve state licensure in Iowa, Nebraska, Kansas and Maryland and USDA Category 2 accreditation, you have past the first requirement.

As a valued team member, you will make an impact not only within our Dallas Center farms and hatcheries, but also internationally, by reviewing flock health and biosecurity programs, and endorsing international health certificates. You will collaborate with all departments to ensure that chicks and hatching eggs are qualified for delivery to customers worldwide.

To meet our goals, you will need to be a self-starter, possess a keen eye for detail, great time management skills, and believe in the company's mission and vision. You will need to work efficiently in both an office setting and in animal facilities and enjoy problem solving on a daily basis.

This is a great opportunity to dive into regulatory poultry medicine and breeder flock management. Experience presenting complex topics is strongly preferred, along with advanced computer skills, including Microsoft Office Suite.

At Hy-Line International we strive to have a great atmosphere so employees can achieve their best. The company's employee benefits package is top notch.

If you are willing to take the step forward and apply, our leadership team will review your skills and background. Hy-Line International believes in the value of diversity within our workforce and is an equal opportunity employer. Because of our commitment to the poultry industry, candidates will be required to successfully completed a pre-hire drug and background screening.

Please email your resume to HumanResources@hyline.com.

We are excited to meet you!
