

Interested in being part of an international company that feeds the world? If you enjoy technology, agriculture, and being hands-on, come join our team as our **IT Specialist!** We need an employee that matches our vision and values, and can offer IT knowledge with excellent customer service to our employees.

As a valued team member, you will be responsible for providing technical assistance, support for queries and issues related to computer systems software, including software install/uninstall. You will need the ability to perform helpdesk functions and train computer users on company provided programs. It will be your responsibility to maintain the performance of the computers and work with the employees to ensure they are working with the most updated equipment and programs that are required for their role.

If you are the type of employee that likes to be on the move, not always behind a desk, then this opportunity will be just for you. This position will require you to be inside our Research Farms, Labs, Hatchery, and other departments across our Dallas Center Campus throughout your workday. To meet our goals, you will need to be a self-starter, work around poultry, detail-oriented, and believe in the company's vision and mission.

This great opportunity will allow you to showcase your Associate degree. Knowledge in Windows 10, Microsoft office 365, Excel, Word, power point, Adobe Acrobat Pro and Teams, Zoom, GoToMeeting, would be a plus.

Our full-time company benefits that are offered to all employees is one piece to this great opportunity and if you are ready to take the step forward to apply, our leadership team is waiting to review your resume.

Hy-Line International believes in the value of diversity within our workforce and is an equal opportunity employer. Because of our commitment to the poultry industry, candidates will be required to successfully complete a pre-hire drug and background screen.

Please email your resume to HumanResources@hyline.com.

We are excited to meet you!
